

## Visit by Buxton Urban District Council

Yesterday, several members of the Buxton Urban District Council, headed by Mr. J. H. Lawson, chairman of the Fire Brigade Committee, visited the Sheffield Fire Station, in order to witness the working of the Corporation's No. 3 Shand Mason steamer. The deputation was received by Ald. Chalmer, Chairman of the Watch Committee, and Commander Scott Chief Constable. Under the guidance of Superintendent Frost, the buildings and apparatus were inspected and a "turn-out" was specially affected. Engineer Hadwick got up power in the steamer in a short space and the capabilities of the engine were thoroughly demonstrated.
